

WHAT WE ARE:

Winnetka Men's Golf Club, founded in 1956, is an association of leagues, teams, events, and championships run exclusively by its members. Members select which events to participate in, ranging from selective engagement to total involvement. From post-game socializing, season beginning and ending member dinners, and regular electronic updates we successfully bring together players not just from Winnetka but surrounding communities including Chicago.

Our championship golf course, which dates from 1917, is undergoing comprehensive renovations (Est. 8/1/24) including but not limited to: new greens, new tee boxes, new fairways, drainage, new and reconstructed bunkers, tree management, and a total water penalty area overhaul. As a result, based on best of class golf course architecture, strict adherence to the healing process, early observations from long time members, and a strong financial commitment from the Village, we believe The Winnetka Golf Club will be amongst, if not the finest municipal golf course in the area, befitting the Winnetka community it serves. The golf facility, food service, and maintenance are now managed by Kemper Sports, a premier national golf course management company for many name brand golf destinations such as Sand Valley in Wisconsin.

The Winnetka Men's Golf Club is a place where you can make real friends. We are the latest iteration of a rich history that spans generations. Some foursomes have been together for years. Many players enjoy moving from group to group. All enjoy the organized or ad hoc social gatherings at the conclusions of many events. We are an association of golfers and welcome new players of all skill levels to join our club and look forward to sharing our golf experiences with you.
